Detention Population from Feb. 8, 2020 to Feb. 8, 2021

Detention Period Date: Between Feb 8, 2020 and Feb 8, 2021

Fiscal Year	Client Count
2019/2020	1,316
2020/2021	1,367
Overall	**2,446**

Duplicate counts of the same person: The summary rows at the end of this report must be used to identify the actual number of detainees within the report period. It is not possible to add up the count of each year to determine the total number of detainees as the detention period of one person can overlap from month to month included in this report. Therefore the total for each element in the detailed report may be higher than the total number of persons detained in the summary row, which is the actual number of persons detained.

Detention period: All statistics related to number of persons detained include the total number of persons in detention at any time during the reporting period. Therefore, the number may include individuals whose detention began before the reporting period and/or who were released during (or after) the reporting period.
